Police Commissioners Decide to Purchase a Wagon

FOR CARRYING DEAD HORSES

Vary Little Real Business Transacted at Yesterday's Session of the Police and Fire Board.

Fire Marshal Lemoin consumed a hulf hour before the board yesterday in talk-ing about his visit to the convention in Milwaukee. He explained an appliance for carrying a line of hose to the top of a high serial ladder to direct a stream of saler into the sixth or seventh story the fact of a fire box on Fourth street being plugged so that when fire was dis-covered in William Harrison's house on Fourth and Davis streets the box could

and be pulled.

Althorman Forbes appeared before the board and stated that a gang of hood-lume on East Fulton street was making night hideons with their yells and carryings on. They would place obstruction on the electric car line to see the fun when the car struck them, and the residuals were hard a second. the residents were kept awake until late at night by the noise. He asked that an officer he detailed to patroi that section a portion of the time to keep these young toughs in subjection.

Difficer John McCarthy asked for com-pensation for time lost owing to injuries received while in the discharge of his luty. Referred to the finance com-

miltee.
Superintendent Bettinghouse reported that it would take sixteen miles of wire and cost \$600 to place the police signal system on a metalic circuit.

The following persons applied for positions on the police force: W. Harris, W. H. Alben, Willis E. Merritt and D. S.

Bills Ordered Paid.

The committee on finance reported favorably on the following bills: B. F. McReynolds \$100 00 A. Hanish 97 Gardiner & Baxter: 31 Sluyter & Zavity 2 32 Western Electric Co. 78 92

The committee on property reported that it could get a dead horse wagon for the poundmaster for \$150. It will be a one-horse wagon, with an inclined platform and a windlass with which to draw horse carcasses onto it. Referred back to the committee with power to act. In regard to boys holding nightly carnivals in the suburts it was decided that policemen in citizens clothes be sent into these localities to make an example of some of the boys.

On the question of whether swill gatherers had the right to drive through the streets with their barrels uncovered. No ordinance was found covering the subject and the matter was dropped.

COMPLETED THEIR WORK. Final Report of Laker Day Commit-

ness Sufferentiand.

The Labor day sub-committees have submitted their final reports for the celthat from present indications it will be evening. September 4, 1893. All are in-the grandest demonstration over made vited to be present. n this city. James E. Melicide, Peter Soran, A. O. Ceonier bave been apsinted judges to award the banner offered by the Brickiayers and Masons' union to the union making the best dis-play in the parade. Business men are requested to decorate their buildings along the line of murch, and if the weather is favorable the city will assume a gala day appearance.
C. M. Peterson distributed badges

yesterday among the various commit-tees, officers and speakers. They are protty, artistically designed and of the best material. The committee announces that arrangements have been made with Mr. Swetland at the lake whereby hot water can be obtained for making coffee, etc., at the picnic free of charge. Tickets for the water will be furnished the Labor day committee and they can be secured upon application to the committee.

DOG CATCHER RESIGNS.

John Dykema Will Continue to Hold the Place.

Patrolman Madigan does not wish to be Dog Catcher Madigan, and so he has resigned and Dog Catcher Dykema will resigned and Dog Catcher Dykema will retain his position for the present. Nothing was said about the matter in the board meeting yesterlay, though the members lingered about the room for nearly two hours after the board had adjourned, and possibly the dog catcher question was one of the subjects discussed. Mr. Madigan was appointed one week ago with the understanding that he should begin work next Monday. He has been around with Mr. Dykema to learn something of the duties of the position, and when he found that his position, and when he found that his chief duty would be to eart to the glue factory dead rate, dogs, chickens and horses. Tim decided that a hate was good enough for him. Mr. Dysems was therefore recalled with the understanding that he will be retained at least dur-

END OF THE INSTITUTE.

is Has Proved the Most Successful Keer Held in the Counsy.

The State Teachers' institute, which has been in session in the Central Grammar school building for the past tren weeks, cleared with yesterday's one aion. It was the largest institute ever held in Kent munty, and the most successful in many respects. The total enrollment was 200 and the average daily attendance emounted to nearly 200. All the latest and best features of tentilitate week were introduced into the institute work were introduced into the Divisions were formed for adexpected and elementary work giving the beachers opportunity to take whichever around to them the most good. Special attention was paid to reviews in the common brunches, and they were made one of the beaterer of the work. This was the first time that a special teacher. has over been engaged to give Kent county teachers instruction in rational physical training, and Miss Kimberlin's mock in consedered to be of the storest united to the transpers. A special toucher in permanality was engaged as for the first time, and Mr. Lous's instruction was a feature. From Post Delice Fait gave a systematic issues of instruction in payhology and physicings. The particular mint white Prof. Full emphapoint whis Prof. Fall couples spen the teachers in that it is impressible to learn anything of value those moutal science, except by study. In days. Trains leave first a, m, and

ing the mind itself. Works in psychology should be considered only as an aid, and the teacher that attempts to memorize laws of the mind's activity instead of studying the workings of her own mind must fall aftert of obtaining anything like a practical and useful conception of the study which lies at the foundation of all rational teaching. Miss Harris work in primary account teaching was designed to show the teachers how they could bring their pupils searer to nature, and to make them wides sake and observing by the study of natural objects. She insisted upon the value of science teaching in the primary grades and showed how easy it is to give children useful lessons in botany and zoology, without attempting to burden their minds with the dull matter of text books. E. A. Carpenter gave interesting instruction in arithmetic and United States history during the ression, while A. Hamiin Smith made himself useful by general talks on subjects of interest to the teachers.

BOARD OF HEALTH MEETING, Sanitary Condition of the City Good--Accounts Allowed.

But little business was brought before the September meeting of the board
of health, which was held yesterday aftermoon. Health Officer Bradfleid reported the health of the city as being
extraordinarily good. The epidemic of
measles has almost entirely subsided,
and with the exception of a little more
sickness than usual among children
thage is no prevailing disease. Typhoid
fever cases have been reported a little
more frequently from the suburbs during the last few days, but to no alarming extent. The death rate this year
will exceed that of the last two years,
but it is below the average yet. The

will exceed that of the last two years, but it is below the average yet. The board has laid off two inspectors within the last few days on account of a scarcity of work in the health department. After voting to allow the following claims against the city the board adjourned: Voigt, Herpolsheimer & Co., \$3.04; West Michigan Printing company, \$7.50.; John H. Taylor, \$1.75; Grand Rapids Glue company, \$2; Weatherly & Pulte, \$3.65; Wykes & Burnes, 45 cents.

ATTENTION

SUBSCRIBERS

In conducting an amusement enterprise of any leacription one must becreasily come in contact with a great variety of people. It's hard to please everybody. Fact is you can't do it. Whoever tries it will fail to please anybody. Apparently the best way is to be honorable with everybody, establish rules and enforce them. Now the propie are satisfied that a lecture and concert course is a mighty good thing, and it would be as thoroughly popular here as it is in every other city if a system of fairness had been established in the treatment of patrens. It is hardly the fair thing for the management to save choice soats for a number of friends. It isn't fair to allow each person ten scats, and then have some person come late, walk up the line in front of you and go't some friend to secure good seats for hom, while you must be content to stand on one foot, then on the other, until your turn comes and accept inferior seats at that. Another objectionable feature to the sale of tickets where there is liable to be a runh, as the irrepressible small boy who, for novelty, notoriety or gain, will stay up all night or show up before daylight to the morning so as to be the first in line and get the best seats in the house. This is intolerable foolishness and must be done away with. There are plenty of first-class seats in Lockerby hall, and if there is any choice we can't all have the best. Out of 2,000 good seats there are at least 1,200 that are choice, so there will be no necessity for any rush and no unnecessary crowding or jamming will be
